

SURFACE MOUNT FRAME KIT FOR PANEL LIGHT

Description:

Surface Mount Frame Kit for Panel Light has low energy consumption, long life, and a nice even light virtually eliminating glare and shadows.

Features:

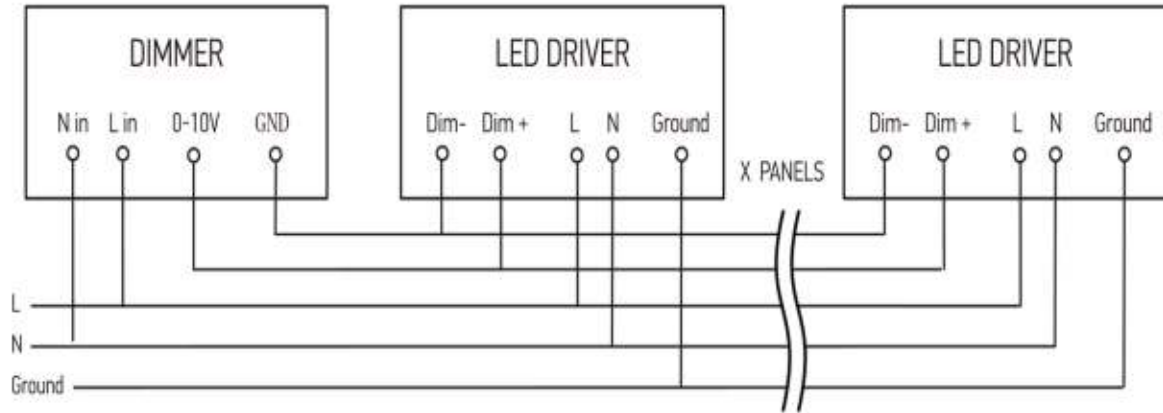

- Long life: Its service life is significantly longer than fluorescent lamps or other light sources.
- Ecological: Saves electricity and low carbon.
- Saves energy: Consumes less energy via use of efficient LEDs.
- Homogeneous: Very uniform light distribution in the complete surface.
- Elegant: Modern ultra thin design, healthy light, no UV component and almost no glare.
- Lightweight: Durable, and easy to install. The framing kit supports a variety of modular sizes.

Applications:

- Hospitals
- Garages
- Kitchens
- Schools
- Hallways
- Lobbies
- Meeting rooms
- Restaurants
- Offices and etc.
