

# A19 CLEAR GLASS LED BULB 7.5W (60 WATT EQUIVALENT)

## Description:

Our A19 LED Glass Bulbs have the look and feel of a traditional medium-based light bulb. We added the filament to give you the look and style of an older incandescent bulb. You can use these in many everyday settings. The 4000K bulbs can bring natural lighting to your kitchen. 6500K is perfect to brighten your walk-in closet, and the 2700K brings a warm glow to your front porch, bedroom, or living room. With options in 2700K, 4000K, and 6500K you can create the ambiance you need for many everyday settings.

## Features:

- Uses 85% less energy than equivalent incandescent bulbs
- Measures 2-3/8" in diameter
