

Landscape Outdoor Photocell Sensor

Description:

Automatically controls outdoor lighting based on ambient light levels. When the surrounding light reaches a certain threshold, the sensor triggers the connected outdoor lighting fixtures to turn on or off. Enhance safety and reduce unnecessary energy consumption.

Features:

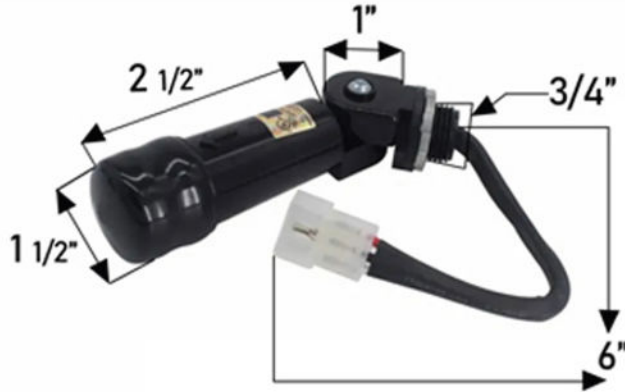

- SKU: NUR-LT408-Photocell
- Turns ON/OFF fixture at DUSK/DAWN.
- Easy three pin connector for installation.
- 6 inch wire length.
- Fits standard 1/2 inch NPT knuckle mount.

Applications:

- Landscape Lighting
- Outdoor Lighting
- Dusk to Dawn Lighting
- Uplight
- Downlight
- Floodlight
- Spotlight

Dimension:
