

SKYWAY 82' STEEL RIBBON BAND FOR STRIP LIGHTS

Description:

Our SKYWAY Steel Ribbon Band is a tension-hung channel substitute that holds your LED strip lights securely in place while offering a sleek and modern lighting look. It is mounted with our SKYWAY WALL BASE (sold separately). And it comes in black or white color options.

The steel ribbon band is 82 feet long and is made of high-quality steel. It is 0.62 inches wide (16mm), allowing enough space to attach most types of LED strip lights.

Features:

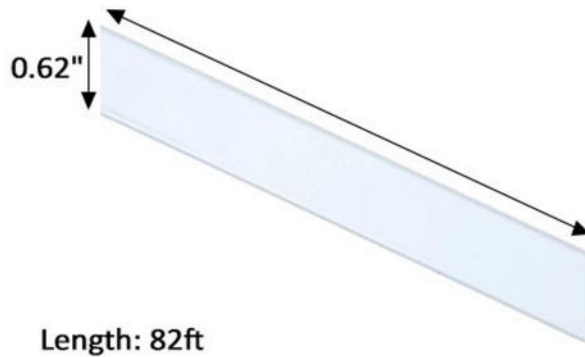

- Length: 82 ft roll
- Finish: Black or White
- Width: 0.62 inches (16mm)
- Maximum horizontal run without sag: 30 ft

Application:

- Accent lighting
- Decorative lighting
- Architectural lighting

Dimension:
