

4IN. MR16/GU10 ADJUSTABLE RECESSED FIXTURE

DESCRIPTION:

This attractive recessed spotlight fixture is perfect for a variety of settings, including hotels, homes, offices, retail stores, and hotels where low-voltage directional, recessed lighting is required. The opening for the light source is 2 inches for either the square or round versions.

FEATURES:

- Base downlights deep >30° glare-cutting angle to keep light out of people's field of view, which is usually considered to extend to 30° above the horizon.
- These lights create a comfortable, premium light environment without unpleasant glare.

APPLICATIONS:

- Hotel
- House
- Office
- Parking Lot
- Exhibition
- Club
