

INDOOR POWER ADAPTER 24W

Description:

This document define a switching power supply electronic process. The switching power supply will provide for technology equipment including electrical business equipment.

Features:

- Universal AC input: 100~240Vac
- Protections: Short circuit / Overload
- No load power consumption < 0.5W /Over voltage
- Class II power (without earth pin)

Applications:

- Indoor LED illuminating lights
- LED Neon, LED urban decoration
- LED lighting advertising, LED display
- Safety protection apparatus
- Telecommunications, networks
- Vehicle lights, controller panels
