

JEWELRY SHOWCASE BAR

DESCRIPTION:

The jewelry Showcase Bar is a quick install, low voltage solution designed for effective display illumination. Available in warm white and cool white options makes it suitable for display cases, deli counters, freezers, aquariums, cabinets, and accent lighting. This 12V light is housed in a durable, rigid aluminum emitting minimum heat. Each bar is 4ft in length and multiple units can be joined to create the desired setup.

FEATURES:

- Energy efficient, using 40% less power than traditional fluorescent lighting
- Minimal heat generation
- Includes mounting brackets for secure placement
- Easy installation, typically with 3M double-sided tape

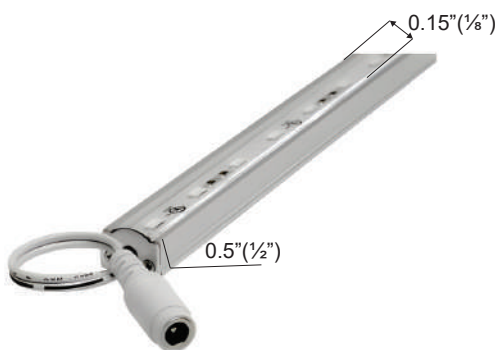

APPLICATIONS:

- Display cases
- Deli counters
- Freezers
- Aquariums
- Cabinets
- Accent lighting
