

VINTAGE GLOBE BULB - LARGE

DESCRIPTION:

The Vintage Globe Bulb offers a warm, inviting 2000K warm white color temperature light that complements any space. Its energy-efficient design consumes just 3.5W power to produce 120 lumens. This UL-certified, eco-friendly LED bulb features a clear glass design and an E26 base, making it perfect for living rooms, dining areas, cafes, and outdoor fixtures.

FEATURES:

- Warm Candlelight Glow: 2000K color temperature for a comfortable, ambient light.
- Energy Efficient: Consumes only 3.5W of power while delivering 120 lumens.
- Durable Lifespan: Rated for up to 15,000 hours with 7,500 switching cycles.
- Fast Start-Up: Reaches 95% brightness in under 1 second.
- Eco-Friendly: UL certified with an A energy efficiency rating.

APPLICATIONS:

- Decorative lighting for residential and commercial spaces
- Ideal for pendant lights, wall sconces, and chandeliers
- Perfect for living rooms, dining areas, and bedrooms
- Hospitality settings like restaurants, cafes, and hotels
- Suitable for creating a warm, vintage-inspired ambiance
