

VINTAGE GLOBE BULB - MEDIUM

DESCRIPTION:

The Vintage Globe Bulb offers a warm, inviting 2000K warm white color temperature light that complements any space. Its energy-efficient design consumes just 3.5W power to produce 120 lumens. This UL-certified, eco-friendly LED bulb features a clear glass design and an E26 base, making it perfect for living rooms, dining areas, cafes, and outdoor fixtures.

FEATURES:

- Emits warm candlelight glow (2000K), perfect for evening lighting
- Low energy consumption with a 3.5W rating
- Long lifespan of 15,000 hours and 7,500 switching cycles
- Quick start time, reaching 95% brightness in under a second
- Durable construction suitable for a wide temperature range

APPLICATIONS:

- Ideal for bedrooms and living rooms for a cozy, relaxing ambiance
- Perfect for evening use to support natural sleep cycles
- Suitable for decorative lighting in cafes, restaurants, and lounges
- Great for creating a warm atmosphere in reading nooks and relaxation spaces
- Excellent for vintage or retro-themed interior designs

TECHNICAL SPECIFICATIONS:

Shape & Cap-Base	E26
Rated Wattage	3.5W
Input Voltage	120V AC
Operating Frequency	60 Hz
Luminous Flux	120 Lumens
Lamp Efficacy	34 LM/W
Color Temperature	2000K (Warm White)
Power Factor	> 0.8
Lifetime	15,000 hours
Switching Cycles	7,500
Start Time (0% to 95%)	< 1 second
Working Temperature	-4°F to +104°F
Energy Class	A
Dimensions	Ø3.15" x 4.72"
