

# ADAPTERS

## MR16 BARE END SOCKET

- SKU: CONV-SKT-MR16-BARE
- The MR16 Bare End Socket is a compact and efficient solution for connecting MR16 base lamps. It comes with a 5.52-inch wire length for straightforward installation and is supported by a 1-year warranty for dependable use.

## BA15D TO MR16 ADAPTER

- SKU: CONV-BA15D-MR16
- The BA15D to MR16 Adapter enables seamless compatibility between an MR16 light bulb and a 0.59-inch bayonet (BA15D) base socket. Constructed with flame-retardant PBT for durability and safety, it features copper contacts to ensure reliable electrical performance.

## E12 MALE TO E26 FEMALE ADAPTER

- SKU: CONV-E12M-E26F
- The E12 Male to E26 Female Adapter allows you to convert an E12 candelabra socket into an E26 medium base, enabling the use of standard E26 light bulbs in candelabra fixtures. Backed by a 1-year warranty, this adapter ensures reliable and convenient performance.

## E26 BULB EXTENSION

- SKU: CONV-E26M-E26F
- The E26 Bulb Extension extends the bulb base, making it ideal for use in recessed or can lighting. Made from flame-retardant PBT for durability and safety, it features copper contacts for reliable electrical performance. 1-year warranty included for reliability.

## E26 MALE TO E12 FEMALE ADAPTER

- SKU: CONV-E26M-E12F
- The E26 Male to E12 Female Adapter converts a standard E26 (medium base) socket to an E12 candelabra base socket, allowing the use of E12 light bulbs in E26 fixtures. Made from flame-retardant PBT for safety and durability, it features copper contacts for reliable electrical performance. Backed by a 1-year warranty, this adapter ensures dependable use.

## E26 MALE TO E39 FEMALE ADAPTER

- SKU: CONV-E26M-E39F
- The E26 Male to E39 Female Adapter converts a standard E26 (medium base) socket to an E39 mogul base socket, allowing the use of E39 bulbs in E26 fixtures. Constructed from flame-retardant PBT for durability and safety, it features copper contacts for reliable electrical performance. 1-year warranty included for reliability.

## E26 MALE TO G24 FEMALE ADAPTER

- SKU: CONV-E26M-G24F
- The E26 Male to G24 Female Adapter converts a standard E26 (medium base) socket to a 4-pin G24 base socket. Made from flame-retardant PBT for durability and safety, it features copper contacts for reliable electrical performance. 1-year warranty included for reliability.

## E26 BULB SPLITTER

- SKU: CONV-1 E26M-2 E26F
- The E26 Bulb Splitter converts a single E26 bulb base into two E26 bulb bases, allowing for dual lighting. Made from flame-retardant PBT for durability and safety, it features copper contacts for reliable electrical performance. 1-year warranty included for reliability.

## E39 MALE TO E26 FEMALE ADAPTER

- SKU: CONV-E39M-E26F
- The E39 Male to E26 Female Adapter reduces the size of a mogul base socket, allowing the use of a standard E26 (medium base) light bulb in an E39 mogul base fixture. Made from flame-retardant PBT for durability and safety, it features copper contacts for reliable electrical performance. 1-year warranty included for reliability.

## G24 MALE TO E26 FEMALE ADAPTER

- SKU: CONV-G24M-E26F
- The G24 Male to E26 Female Adapter converts a 4-pin G24 base socket to a standard E26 screw-in bulb socket. Made from flame-retardant PBT for durability and safety, it features copper contacts for reliable electrical performance. 1-year warranty included for reliability.

### **GU24 MALE TO E26 FEMALE CONVERTER**

- SKU: CONV-IL-AD-GU24M to E26F
- The GU24 Male to E26 Female Converter converts a 2-pin GU24 base socket to a standard E26 screw-in bulb socket. Made from flame-retardant PBT for durability and safety, it features copper contacts for reliable electrical performance. 1-year warranty included for reliability.

### **G24 L ADAPTER**

- SKU: G24-Adaptor-L
- The G24 L Adapter converts your horizontal socket to a vertical socket for use with G24 plug lights. Its telescoping and swiveling arm allow you to center the light in a recessed downlight, offering flexibility and precise positioning.
