

LED COOLER/REFRIGERATOR V SHAPED LIGHT FIXTURE - 4 FT./5 FT./6 FT.

DESCRIPTION:

Our LED Cooler/Refrigerator V-Shaped Light Fixtures provide optimal illumination for display cases, enhancing the visual appeal and marketability of bottles, cans, and other products. The innovative V-shaped design emits light in two directions, making it ideal for double-door refrigerators.

FEATURES:

- Mercury- and xenon-free construction for eco-friendly operation.
- Low heat radiation, minimizing impact on refrigeration systems.
- Energy-efficient design supports reduced operational costs.
- Durable PC cover (transparent or milky white) with an aluminum shell.
- Anodized aluminum finish with stainless steel hardware.
- Built-in over-voltage, over-current, and short-circuit protection.
- Available in white finish.

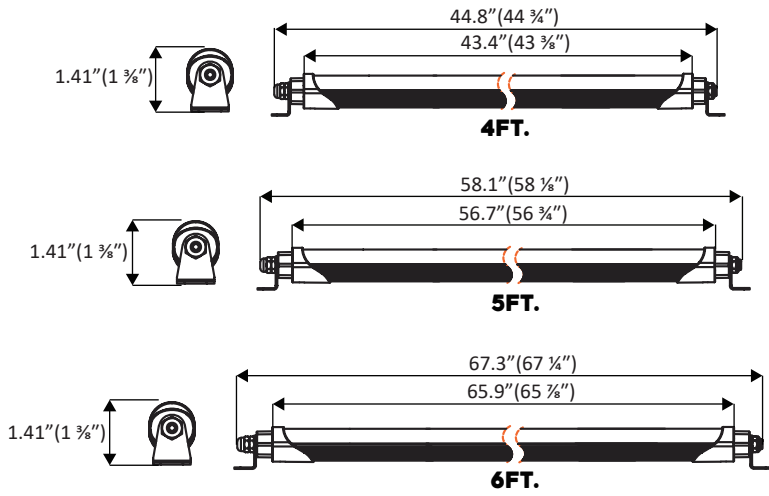

APPLICATIONS:

- Refrigerators and coolers in supermarkets and convenience stores.
- Beverage display cases in cafes, bars, and restaurants.
- Retail settings requiring high-performance, energy-efficient lighting.
