

SNAP WIRE CONNECTOR

DESCRIPTION:

The Snap Wire Connector in orange provides a versatile and reliable solution for connecting all conductor types. Designed to accommodate wire sizes from 12–28 AWG, its compact and reusable design ensures safe and efficient installations. Featuring an easy-to-use lever mechanism and built-in test points, this connector delivers touch-safe, maintenance-free connections suitable for various applications.

FEATURES:

- Supports solid, stranded, and fine-stranded conductors.
- Accommodates wire sizes 12–28 AWG.
- User-friendly lever mechanism for quick and secure connections.
- Compact, reusable, and touch-safe design.
- Built-in test points for easy verification and troubleshooting.
- Approved for grounding and bonding applications.

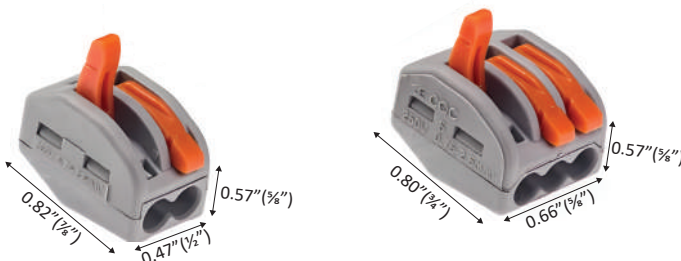

APPLICATIONS:

- Residential and commercial electrical wiring.
- LED lighting systems and installations.
- Junction box connections.
- Appliance and equipment wiring.
- Electrical panel connections.

TECHNICAL SPECIFICATIONS:

Connector Type	Snap Wire
Number of Contacts	2 and 3
Wire type range	12 to 28 AWG
Housing Material	Durable orange polycarbonate
Voltage	600V
Surrounding Air Temperature	104°F
Connection Type	Lever-operated splicing

DIMENSIONS:
