

# WHITE 150W DIMMER WITH ROCKER SWITCH

## DESCRIPTION:

The 150W Dimmer Light Switch combines a sleek, modern design with functional performance. Its slim dimmer slider is discreetly positioned alongside a paddle rocker switch, offering precise dimming for smooth light transitions. This dimmer is equipped with TRIAC Forward Phase Dimming technology and supports 3-way wiring for flexible installation in residential and commercial settings.

## FEATURES:

- Modern paddle rocker switch with a slim side slider for dimming
- Supports TRIAC Forward Phase Dimming technology
- Handles up to 150W for LED lights and 600W for incandescent/halogen bulbs
- American standard design, compatible with 3-way wiring systems
- Smooth and stepless dimming functionality

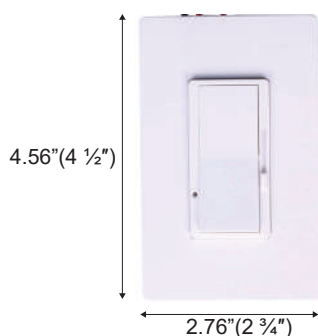

## APPLICATIONS:

- Exhibition halls
- Hotels
- Stages
- Home lighting
