

15 AMP HEAVY DUTY ELECTRIC YELLOW PLUG

DESCRIPTION:

The 15 Amp Heavy-Duty Electric Yellow Plug is a commercial-grade replacement plug designed for hard-wiring 3-wire connections with a double pole. Its robust construction ensures reliability in demanding environments, while the bright yellow color enhances visibility and safety by making connections easily identifiable.

FEATURES:

- Hinged design for quick and easy assembly.
- Ideal for replacing plugs on tools, appliances, and extension cords.
- Compatible with AWG SJ 16/3.
- Rugged PVC construction resists moisture and chemicals.
- Dimpled body offers a secure grip.
- Built-in cord grip adjusts automatically for 18-12 AWG wires.

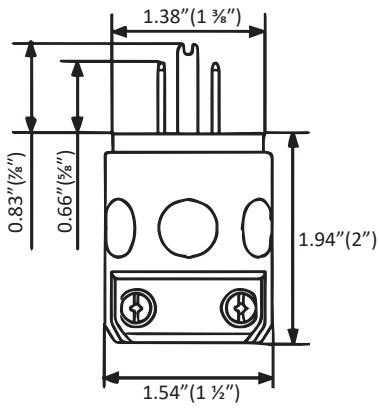

APPLICATIONS:

- Power tools and heavy-duty equipment.
- Commercial and industrial electrical connections.
- Replacement plugs for extension cords and appliances.

TECHNICAL SPECIFICATIONS:

Electrical	Amperage	15 A
	Voltage	125 VAC
	Current Interrupting	Full rated current certified
	Dielectric Voltage	Withstands 2000V per UL498
	Grounding	Yes
	Temperature Rise	Max 86°F after 50 cycles OL at 150% rated current
	Pole	2
	Wire	3
Environmental	Operating Temperature	-40°F to 140°F
	Flammability	Rated V-2 per UL 94
Mechanical	Cord Range	0.245 - 0.655 in
	Wire Compatibility	18-12 AWG
	Terminal Identification	Brass (Hot), Green (Ground), Silver (Neutral)
Material	Body Material	PVC
	Assembly Screws	Steel, Zinc Plated
	Blades/Contacts	Brass
Standards and Certifications	Standards and Certification	UL498, CSA C22.2 No. 42, ANSI C-73, NOM 057, NEMA WD-6
	NEMA Configuration	5-15P
	Warranty	2 Year
