CONNECTORS & WIRES

RGBW STRIP LIGHT CONNECTORS

RGBW Strip Light Connectors are designed for seamless integration with our RGBW lighting systems, offering a variety of connectivity options to suit diverse installation needs. These connectors are available in multiple types, including Gapless (clip), L (corner), T (3-way), X (4-way cross), Bare End (live end wire), and Extender (5" gap). The solderless design eliminates the need for complex soldering, making installation quick and hassle-free. Built for durability, these connectors provide stable and long-lasting connections for both residential and commercial applications.

| ORDERING GUIDE				SKU: CONN-CLP-12mm-RGBW-BARE
Connector	Clip	Size	Color	Type
CONN	CLP	12mm	RGBW	Bare` (Bare-End)
				EXT (Extender)
				CPL (Gapless)
				L
				T
				X (CROSS)

RGB+CCT STRIP LIGHT CONNECTORS

RGB+CCT Strip Light Connectors provide efficient connectivity for RGB+CCT lighting systems, ensuring easy and reliable installations. These connectors are available in Gapless (clip), Bare End (live end wire), and Extender (5" gap) options. The solderless design allows for quick assembly without the need for soldering. Engineered with precision, these connectors ensure a secure and snug fit, making them ideal for various lighting configurations.

ORDERING GUIDE				CONN-CLP-12mm-RGBCB-BARE
Connector	Clip	Size	Color	Type
CONN	CLP	12mm	RGBCB	Bare` (Bare-End)
				EXT (Extender)
				CPL (Gapless)

SINGLE COLOR GAPLESS SOLDERLESS CONNECTORS - SLIM SD

Single Color Gapless Solderless Connectors – Slim SD are compact and reliable solutions for connecting single-color strip lights. Available options include Gapless, Bare End, Extender, L (corner), T (3-way), and X (4-way cross). The slim design is perfect for discreet installations in tight spaces. These solderless connectors offer a user-friendly solution, enabling fast and stable connections without requiring soldering, making them ideal for residential, commercial, or decorative lighting setups.

ORDERING GUIDE			SKU: CONN-CLP-8mm-BARE
Connector	Clip	Size	Type
CONN	CLP	8mm	Bare` (Bare-End)
			EXT (Extender)
			CPL (Gapless)
			L
			T
			X (CROSS)

RGB 18 AWG 4 PIN WIRE - 25FT

RGB 18 AWG 4 Pin Wire is a versatile, multi-strand cable designed for use with low-voltage DC power applications up to 300 volts. The 4-contact wire features durable rubber silicone shielding for added protection and reliability. Commonly referred to as zip wire or bonded wire, the Red/Black Zip Cord allows for quick separation of the bonded cables, making it easy to extend wiring for low voltage strip lights. The clearly marked polarity simplifies installation for DC applications, ensuring an efficient and hassle-free setup.

RGBW 20 AWG 5 PIN WIRE - 25FT

The RGBW 20 AWG 5 Pin Wire is a durable and high-quality cable designed for RGBW lighting systems. With a 20 AWG gauge and 25 ft length, this wire provides reliable connectivity for various applications. Its 5-pin configuration ensures compatibility with RGBW strip lights and related components, making it an essential accessory for creating vibrant and versatile lighting setups.
SKU: CONN-5PIN-BARE-20AWG-ID

RGB+CCT 20 AWG 6 PIN WIRE - 25FT

The RGB+CCT 20 AWG 6 Pin Wire is specifically crafted for RGB+CCT strip light systems, offering a dependable solution for powering and connecting light strips over extended distances. With a 25 ft length and 20 AWG wire gauge, this high-quality 6-pin wire ensures stable and efficient power delivery. Its durable construction and compatibility with RGB+CCT strip lights make it an essential component for long-lasting and effective lighting installations.
