

ETL LISTED JUNCTION BOX FOR 80W/100W/200W LED POWER SUPPLY

DESCRIPTION:

The ETL Listed Junction Box is specifically designed to pair with Outdoor TRIAC Dimmable LED Drivers, offering a secure enclosure for electrical connections. While not waterproof, the pre-drilled holes allow for efficient cable management and easy installation. This junction box is ideal for indoor or sheltered outdoor applications.

FEATURES:

- Compatible with 80W, 100W, and 200W LED Power Supplies.
- Pre-drilled holes for convenient wiring access.
- Sturdy and durable construction for long-term use.
- ETL Listed for compliance and safety.
- Designed for indoor and covered outdoor installations.

APPLICATIONS:

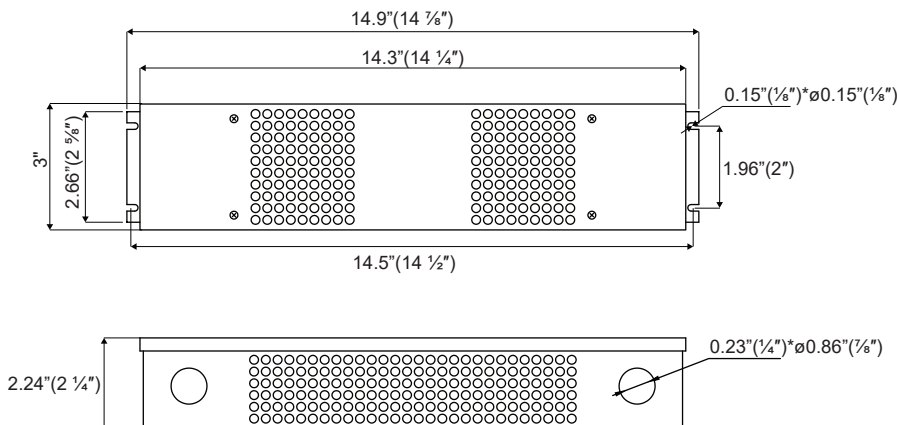

- Electrical enclosures for TRIAC dimmable LED drivers.
- Sheltered outdoor lighting systems.
- Residential and commercial installations.
