

LED 7-WATT FILAMENT CANDELABRA DIMMABLE BULB

DESCRIPTION:

Our LED 7-Watt Filament Candelabra Dimmable Bulb perfectly combines vintage aesthetics with modern efficiency. This nostalgic filament-style bulb recreates the warmth of classic incandescent lighting while consuming only 7 watts. Delivering 800 lumens, it is available in clear or frosted lens options and offers color temperatures of 2700K, 3000K, 4000K, and 5000K.

FEATURES:

- Available with a clear or frosted lens
- Nostalgic filament design
- 7-watt energy consumption
- Dimmable for customized lighting ambiance
- CRI of 80 for accurate color rendering
- Lifespan of 15,000 hours
- E12 base for easy installation

APPLICATIONS:

- Decorative lighting in chandeliers and sconces
- Ambiance lighting for cozy interiors
- Vintage-style and nostalgic lighting setups
- Residential interior lighting
